A SEPTEMBER FULL OF SCIENCE

THE EUROPEAN RESEARCHERS' NIGHT

29 September

Laboratories, Divisions, and Groups associated to INFN join the [European Researchers' Night](#), with scientific meetings, activities, and games in many Italian cities to get the wider public involved in the world of scientific research.

INFN AND THE EINSTEIN TELESCOPE AT BERGAMOSCIENZA

30 September and 1st October, Sentierone, Bergamo

"La scuola in piazza"

Stands about the Einstein Telescope and gravitational waves research. With the support of MUR.

Little experiments and demonstrations will unveil the fascination and mysteries of gravitational waves and tell schools and wider audience about the big research challenges and latest frontiers, like multi-messenger astronomy and the future [Einstein Telescope](#).

1st October, at 5:00 p.m., Piazzale degli Alpini, Bergamo

New eyes for gravitational waves

A show-lecture about the [Einstein Telescope](#) project and Italy's candidacy to host it in Sardinia. With **Monique Bossi**, INFN and ETIC, **Marco Pallavicini**, INFN and University of Genoa, and **Luca Perri**, astrophysicist and educator. **Sara Zambotti**, Rai radio, will introduce the event. Readings by **Maria Giulia Scarcella**, actress.

LABORATORIES ON WATER AT QUANTUM GDVT

17 October (10.00-17.45) and 18 October (8.30-15.15), Palazzina Liberty, Gardone Val Trompia

The [INFN Kids](#) project is participating once again this year at the [Quantum di Gardone Val Trompia](#) festival, with a laboratory for kids about the cycle of water.

INFN AT THE MAKER FAIRE ROME

20-22 October, Fiera di Roma, Pavilions 'Research' and 'Learn'

This year, INFN is joining the [Maker Faire Rome](#) with a stand on the HOPE tinkering project, by the INFN Ferrara Division and some students of the high schools that will be at the fair, and two workshops on the scientific method, in which the participants will be the direct stars of scientific research. The workshops will be run by Lorenzo Caccianiga, INFN Milan Division, and Pierluigi Paolucci, INFN Naples Division, and Daniele Molaro, educator.

THE GENOA SCIENCE FESTIVAL RETURNS

26 October -5 November

From 26 October to 5 November, INFN will, as usual, be at the [Genoa Science Festival](#) with events for schools and for the public and numerous activities for children and students.
