

QUANTUM. THE REVOLUTION IN ONE LEAP

The story of a theory that changed science and our lives. An idea that overturned the way we see reality and understand the universe. Counterintuitive, disruptive, fascinating. It is quantum mechanics. Its compelling story, between science and revolution, is told in the new exhibition "QUANTO. THE REVOLUTION IN ONE LEAP", curated by INFN and realised by INFN and MUSE - the Trento Science Museum. The exhibition will be open to the public from 7 December 2023 to 15 June 2024.
